## Scott Arford/Randy H. Y. Yau/Michael Nine "7HZ" CD

7hz, founded in 1995 by Scott Arford, has continued to function as San Francisco's premiere venue for noise and experimental media. A space where new combinations of image, sound, and experience can be realized. Since its inception it has had the privilege of hosting performances for many of the world's most interesting, progressive, and challenging sound and media artists. This CD represents some of the best recordings by each of the 3 people that live at 7hz and make happen. Randy has appeared on Ground Fault (GF009 - RHY Yau "The Hidden Tongue"). Scott is also no stranger to Ground Fault (GF003 - Radiosonde "Meter Sickness"). Michael Nine is better known for his work under the name **Death Squad**. This is the fourth collaborative CD between Randy's Auscultare Research label and Ground Fault Recordings.
